

SRI UMAPRAGATHI FIRST GRADE COLLEGE

KYATHASANDRA, TUMKUR -572104

REPORT ON CIVIC PROBLEM SOLVING: WATER SUPPLY INITIATIVE BY SRI UMAPRAGATHI FIRST GRADE COLLEGE.

Introduction:

Sri Umapragathi First Grade College, located in Kyathasandra, Tumkur-572104, has always been dedicated to serving the community. In response to an urgent municipal issue confronting communities living near the campus, the college administration made proactive steps to alleviate the water supply situation, particularly during the difficult summer months.

Problem Identification

The houses near Sri Umapragathi First Grade College have had intermittent water delivery from the municipal corporation. This problem is more acute during the summer, when demand for water rises but availability declines. The college is situated outside the main Tumkur Town, has seen that this issue has become a major worry among local inhabitants.

The college took the initiative.

Recognizing the gravity of the situation, the college authorities, led by the Principal, opted to address it through a community-centered strategy. The college has an adequate water supply on campus, and the administration has decided to share this resource with the surrounding homes.

Implementation

The College established a scheme to supply water to nearby homes in an organized manner. This involved:

1. Identifying Needs: The College surveyed affected homes to determine their daily water requirements.
2. Logistics: Water was transported from the college campus to nearby dwellings. This involved utilizing.

This entailed utilizing available resources, such as water tanks and pipelines.

3. Scheduling: A schedule was devised to distribute water equitably and effectively, reducing waste and providing an adequate supply for all impacted families.

Impact on the Community

The effort has had a tremendous positive impact on the surrounding neighbourhood. Residents who previously struggled to satisfy their daily water demands now have access to a consistent supply of water. This not only solved the immediate situation, but it also developed a sense of community and trust between the college and the locals.
